Cleveland High School

5511 15th Avenue South
Seattle, WA 98108
(206) 252-7800

Project Description

Project consists of partial demolition of the existing historic 1927 building and complete demolition of the existing gymnasium, renovation of the remaining landmark historic portions that have significant facades, modernizing the 1927 building, adding a new gymnasium/commons building and a new three story classroom building. Plan is to include plazas and open up 15th Avenue to pedestrian traffic. Renovation will expand student capacity to 1,000 students from the current 783. Total facility after renovation is approximately 172,000 gross square feet.
